For turbine powered items the Fast-Track locator does the work for you, just submit your request and our locator sends out to our extensive vendor list that responds directly to you.Development Origins. In the late 1960s, Bell began designing a new twin-turbine engine light helicopter. A mockup of the new helicopter was displayed in January 1974 at a helicopter convention. Following interest at the convention the company announced the new Bell 222. It was the first light commercial twin-turbine helicopter developed in the United States.
